Azuaga | Spain | 1.600 kWp | tracking system | 2008

Fulfilled Services:

- Advisory of Investor throughout the process of financing and acquiring the project
- EPC
- Supervision of Technical Operation and Maintenance,
- Commercial Management of the SPVs

Foggia | Italy | 1.000 kWp | fixed system | 2009

Fulfilled Services:

- Advisory of Investor throughout the process of financing and acquiring the project
- EPC
- Commercial Management of the SPVs

Peglio 3 | Italy | 993 kWp | fixed system | 2011

Fulfilled Services:

- Advisory of Investor throughout the process of financing and acquiring the project
- EPC Management
- Supervision of Technical Operation and Maintenance,
- Commercial Management of the SPVs

Prunu | France | 4.500 kWp | fixed system | 2011

Fulfilled Services:

- Full Development and Design of the project
- Management of Implementation and Construction

Viterbo | Italy | 17.700 kWp | fixed system | 2012

Fulfilled Services:

- Advisory of Investor throughout the process of financing and acquiring the project
- Supervision of Technical Operation and Maintenance
- Commercial Management of the SPVs

Port-Louis | Mauritius | 40 kWp | fixed system | 2012

Fulfilled Services:

- Full Development and Design of the project
- Management of Implementation and Construction
- Full component supply

Abu Dhabi | UAE | 34 kWp | tracking system + Cellcube battery system + PV carport | 2012

Fulfilled Services:

- Development of matching energy systems
- Procurement of components
- Quality management and supervision of construction

Oropos | Greece | 400 kWp | fixed system | 2013

Fulfilled Services:

- Full Development and Design of the project
- Management of Implementation and Construction

clean energy
services and solutions

BEC Schools | Mauritius | 750 kWp | fixed systems | 2013

Fulfilled Services:

- Full Development and Design of the project
- Management of Implementation and Construction

KIA showroom | Mauritius | 63 kWp | PV + Lithium storage system | 2013

Fulfilled Services:

- Full development and design of the project
- Procurement
- Supervision of construction
- Modules and battery supply

Lahore University Management School (LUMS) | Pakistan | 42,24 kWp | fixed system | 2013

Fulfilled Services:

- Full Development and Design of the project
- Management of Implementation and Construction
- Full component supply

Pitiantuta | Paraguay | 15,7 kWp | solar water pump | 2013

Fulfilled Services:

- Product Development
- Planning and purchasing
- Implementation and Construction

clean energy
services and solutions

Residential Lahore | Pakistan | 6,72 kWp + 15 kWh
Storage | 2013

Fulfilled Services:

- Full Development and Design of the project
- Management of Implementation and Construction

Chato | Paraguay | 1,452 kWp | solar water pump | 2013

Fulfilled Services:

- Product Development
- Planning and Purchasing
- Implementation and Construction
- Full component supply

Emporium Mall | Pakistan | 1.500,00 kWp | fixed system
| 2014

Fulfilled Services:

- Full Development and Design of the project
- EPC and Ownership
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Season Food | Pakistan | 400 kWp | fixed system | 2014

Fulfilled Services:

- Full Development and Design of the project
- EPC and Ownership
- Full component supply
- Operation and maintenance during contract period

Supreme Farms | Pakistan | 900 kWp | fixed system | 2014

Fulfilled Services:

- Full Development and Design of the project
- EPC and Ownership
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

VC Bird Intl. Airport | Antigua | 3,000 kWp | Ground fixed system- sun2live + 2 MW/2.218 MWh Battery Storage system| 2015

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

GOAB –Governmental Buildings | Antigua & Barbuda | 2000 kWp | Roof system-sun2roof | Clare hall School | 2015

Fulfilled Services:

- Full Development and Design of the project
- EPC and Ownership
- Full component supply
- Operation and maintenance during contract period

GOAB –Governmental Buildings | Antigua & Barbuda |
2000 kWp | Roof system-sun2roof | Grammar School |
2015

Fulfilled Services:

- Full Development and Design of the project
- EPC and Ownership
- Full component supply
- Operation and maintenance during contract period

GOAB –Governmental Buildings | Antigua & Barbuda |
2000 kWp | Roof system-sun2roof | AGHS School |
2015

Fulfilled Services:

- Full Development and Design of the project
- EPC and Ownership
- Full component supply
- Operation and maintenance during contract period

GOAB –Governmental Buildings | Antigua & Barbuda |
2000 kWp | Roof system | PMS School | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC and Ownership
- Full component supply
- Operation and maintenance during contract period

Private Residence | Kealfalda - Ireland | 10 kWp | Carport
system-sun2park | sun2safe + storage | 2015

Fulfilled Services:

- Full Development and Design of the project
- Procurement
- Supervision of Construction

GOAB –Governmental Buildings | Antigua & Barbuda |
2000 kWp | Roof system-sun2roof | Villa Primary
School | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC and Ownership
- Full component supply
- Operation and maintenance during contract period

GOAB –Governmental Buildings | Antigua & Barbuda |
2000 kWp | Roof system-sun2roof | Potter's Primary
School | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC and Ownership
- Full component supply
- Operation and maintenance during contract period

Jumby Bay | Antigua & Barbuda | 404 kWp | Ground –
sun2live and Roof system-sun2roof | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Pure Turquoise | Antigua & Barbuda | 51 kWp | Ground
fixed system sun2live + storage sun2safe + osmosis
–sun2water | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

PM Mall | Antigua & Barbuda | 21.42 kWp | Roof system-
sun2roof | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Digicell - Crab hill | Antigua & Barbuda | 5 kWp | Telecom
systems – sun2com | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Digicell - Zion hill | Antigua & Barbuda | 5 kWp |
Telecom systems sun2com | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Falmouth Private Residence | Antigua & Barbuda | 10
kWp | Roof system-sun2roof+ sun2safe inverter | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Padenga | Zimbabwe | 216 kWp | Ground static tracker system sun2live | 2016/2017

Fulfilled Services:

- Full Development and Design of the project
- Special meeco design – static tracker system with different orientation to meet the energy demand of the customer on time - Tailor-made solution
- EPC
- Full component supply
- Supervision of Construction

Padenga | Zimbabwe | 40 kWp | Ground sun2live PV system | 2017

UME extension to the initial project upon client's request.

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction

Caricement | Antigua & Barbuda | 50 kWp | Ground fixed sun2live & Roof system sun2roof | 2016

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

GOAB – Bethesda | Antigua & Barbuda | 4,000 kWp | Ground fixed systems sun2live | 2016 | 4 MW / 4,436 MWh Battery

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

National Housing Program | Antigua & Barbuda | 150 kwp in total in Fifty of 3 kWp | Roof system sun2roof| Executed | 2017

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Padenga | Zimbabwe | 330 kWp | Ground static system sun2live| Under finalization| 2017

Fulfilled Services:

- Full Development and Design of the project
- Special sun2Flow meeco design – ground sun2Live PV system + Aqua Drive Pumping System
- EPC
- Full component supply
- Supervision of Construction

State House | Guyana | 44 kWp | PV Roof system sun2roof | Executed | 2017 | Under Guyana State Tender

Fulfilled Services:

- Full Development and Design of the project
- Roof static sun2live PV grid connected system for Ministry of the Presidency
- EPC
- Full component supply
- Supervision of Construction

Mabaruma | Guyana | 400 kWp | Ground static system sun2live | Under execution | 2017 | Under Guyana State Tender

Fulfilled Services:

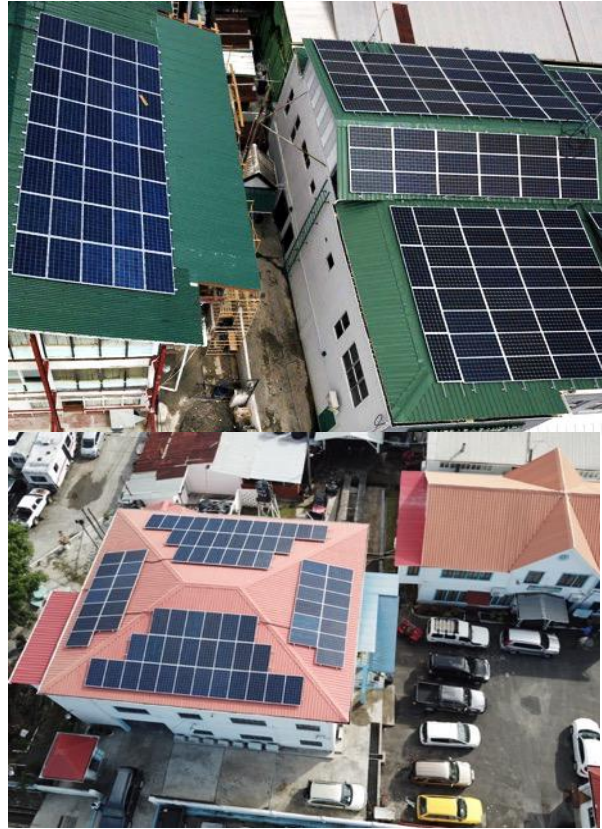

- Full Development and Design of the project
- Ground static sun2live PV & storage system – linking to the existing diesel generator and synchronizing with the existing grid
- EPC
- Full component supply
- Supervision of Construction

57 Government Buildings | Guyana | 740 kWp | Roof system sun2roof | Executed | 2017 | Under Guyana State Tender

Fulfilled Services:

- Full Development and Design of the project on 57 different grid connected locations for public service buildings – Following Guyana Gvt.
- EPC
- Full component supply
- Supervision of Construction

Lost Puffin | Antigua & Barbuda | 51 kWp | Ground fixed sun2live & sun2water osmosis systems | Execution Started | end 2017

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Jumby Bay | Antigua & Barbuda | 400 kWp | Roof system sun2roof + 2.2MW sun2safe inverter + 560kWh storage solution | Under execution | 2017

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Sikh temple | London, UK | 10 kWp | sun2roof system |
Executed | 2017

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction

Narei | Guyana | 16 kWp | sun2roof + sun2safe storage
system | Executed | 2017 | Under Guyana State Tender

Fulfilled Services:

- Full Development and Design of 5 Insitute Buildings
- EPC
- Full component supply
- Supervision of Construction

Bowen Brewery | Belize | 333 kWp | sun2roof system |
Executed | 2018

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period

Kariba Mainland Extension | Zimbabwe | 470 kWp |
sun2live system | Executed | 2018

Fulfilled Services:

- Full Development and Design of the project
- EPC
- Full component supply
- Supervision of Construction
- Operation and maintenance during contract period
